

Text Control Logo Specifications and Guidelines

- Never redraw or alter the logo
- Never scale a rasterized image - always use the vector source to produce scaled versions
- Use authorized artwork from http://www.textcontrol.com/en_US/corporate/press/resources/

Colors

When the logo appears on white background, use our primary, authorized colors

Inverted Logo on darker backgrounds

Clear Space

Always maintain the clear space around the Text Control signature to protect the logo from distracting graphics and typography.

Measure clear space by half of the height of a logo character.
